Doubtless the same reply would account for the omission of any refer ence to the Kowloon extension, as that question appears to have been treated in connection with the French demands; but since then the French flag has been hoisted at Kwongehauwan, and it is understood that the Kowloon territory is to come under

British jurisdiction almost immediately. In the correspondence that has been published there is a good deal of not very pleasant reading, but to say that the Russian Foreign Office simply "walked round" Lord SALISBURY is absurd. Great Britain having lost nothing and gained a great deal there appears no good reason for disappointment with the final outcome. Such fullure as has attended our diplomacy "is to be found in the fact that we did not prevent Russin obtaining certain concessions, but for those concessions we obtained an ample equivalent. As to the effect of the Russian concessions Count MOURAVIEFF in a note to Sir Nicholas O'Conor dated 1st April last (the closing document of the series) says:--"The substitution of the "Russian usufruct for possession by China " of Ports Arthur and Talienwan has not "affected in any way the interests of the "other Powers in those regions; quite on "the contrary, . . . a port hitherto of Messre M. Should Spain porsist in fitting out privateers, after the United States has nobly and volunturily relinquished her right also to practise high-way robbery on the seas, very serious consequences may be expected. If telegraphic communication be interrapted, another difficulty has to be faced. Landing American troops on the island does not so much imply their arrival as their support, The island is, in the new opening fever months, as bad for European Spaniards as for Americans. It is not believed that Cuba has any extensive foed supplies to fall back upon. Havana, with a population of 230,000 inhabitants, will soon bite into the provision stores. In one sense, both belligarents are in the honeymoon stage of the conflict; when disasters and defeats come, there will be mournings and refloction. JELEBU MINING AND TRADING "CO., LIMITED.

The seventeenth ordinary general meeting of the shareholders of the Jelebu Mining and Trading Company was held at Singapore on the 21st May. Mr. J. P. Joaquim presided, and there were also present Messrs. Arnot Reid

and J. Miller, directors of the Company, and the following shareholders :- Messrs. J. Robertson, D. P. Macdougall, J. Forbes, W. Ewuld, H. Hilton, E. M. Schwabe, Yeo Swee Hee, and Low Chong Chye Mr. J. P. Josquim said-Gentlemen, the roport and accounts having been placed before the longest purse and the most tenacious will, you during the prescribed time, I will with not to stop till the task undertaken be the your permission take them as read: As usual roughly excouted. After Cuba falls, Porto we have in the report given full details of Rico succumbs; by then the Philippines will be the workings both in Jelebu and Maliwun.

is, I am glad to say, again making satisfactory progress, and the manager is confident of doing an increased business in ourrent half year. The satisfactory feature of this business is the absence now of risks connected with advances to minera, because we are now only advancing monies and stores to miners against visible ore or other good securities. I now come to the Rin lade and we must congratulate ourselves on our possessing so valuable an asset in Jelehr. We have published telegrams received from the manager saying day. The following telegrams are from the lode, he suggested the sinking of the shaft to 160 feet, and the whole work is directed to this end. - According to the lode manager, oxtend in depth, and probably, also, in size, the formation of the stone in which the lode runs agents which will help you to decide on the course to be followed in respect of this conceswhile the race would take in charge the civilia- sion. This concession was acquired by the company in November, 1894, from the Burmah

October, 1894. Following the proven policy operations, considering (a) the scarcity of roads gives any and want of steamer communication, (b) the d States soarcity of water required for maning (the dry season lasts 5 months during which no work can be done), (e) The considerable depth of the overburden, (d) the difficulty in retting coolies and the consequent necessity and delay in importing labour, involved great less of time and money. The result was a failure, and the unsuitability of the concession as regards alluvial mining can now be no longer doubted. Long before this fact was realised, the directors gave their attention to the various reefs reported as tin bearing. However, though the results of a small trial crushing in Europe were ancouraging, yet tes | the large amount of wolfrom contained in dal ore and the not sufficiently satisfactory prospooting results, together with the difficulty in

obtaining water, caused the directors to stop further work, it having been also found that. the financial position of the company, which had then changed, and the funds being likely to be required on account of the promising, Rin lode in Jelebu, did not permit continuing prospecting on such a scale as to warrant a reliable conclusion being come to within reasonable time. No further work has since been done on the reefs, but it is certain that Government would not renew the lease which expired in November last year unless the Company were prepared to restart work

and to erect machinery, The store business which had paid so well in Jolebn has not given satisfaction in Maliwan and will anyhow have to be closed. The opium and liquor farms have, so far, left a loss to the company and are not worth taking up again unless the licences are reduced to half of the amount fixed now. Trading prospects, though a definite opinion cannot be pronounced, do not seem to be promising. The total amount spent on the concession since commencement is \$97,987, of which \$42,151 have been previously

written off. The assets might realise \$10,000. The decison of the Burmah Government in rean gard to the renewal of the concession is still outcar standing, and there seems to be considerable hesitation to grant the renewal. Our financial position is such that neither Jolehn not Maliwun tent to must be given up, as the profits of the Rin lode are now distinctly promising. I would recommend the stopping of Maliwun. Of course everything will be done to realize as much as possible for the concession and respective agests These are all the remarks I can add to the report, and I shall be glad to answer any questions which you may like to ask.

As no questions were put to the Chairman, been added for he moved the adoption of the report and ac-Mr. A. Reid seconded, and the motion was

THE NOTE FORGERIES. ANOTHER ARREST.

Singapore, 21st May. rich Grosse, one of the German note forgerhad been placed under arrest. Investigations have been made in Cologne by the Hamburg agent of the bank, and it is presumed that he has discovered sufficient evidence to warrant him having the woman arrested. It will be remembered that when Grosse and Schultz were brought up for sentence at the assizes,

that his mother-in-law had been the thatigator of the affair, and that she had promised him a good fits. The mother-in-law will without doubt, take her trial in Germany, and the statements of Grosso and Schultz will be required by the Cologne court. In that event the German consul will probably take their sworn depositions and forward them to Germany, where they will be regarded as evidence, Another interesting point arises out of the case. - The German Government would be perfect within their right in demanding the extradition of Grosse and Schultz for having forged the notes in Germany, and the question is whether the British Government, instead of spending Si a day upon each of the men for ten and eight years respectively, would not be adopting a less expensive course by granting their extradition. Every endeavour has been made to keep the affair as quiet as possible, and it was only with the utmost difficulty that uny details could be learnt. It appears that the unfortunate man was in the employ of Messrs. Arnhold, Karberg & Co. in Canton, and became involved in some fluancial embarrasament and came up to Shanghai, where he was arrested on a warrant a few days ago. His relatives in Germany were communicated with by telegraph, and on their undertaking to make themselves responsible for his liabilities, he was liberated, and was to have left for the South again.
